

Housekeeping operations for short-stay homes: automatic turnovers, a crew app and photo-scored cleaning quality.

Who it is for. Managers who run their own cleaning crews across many short-stay homes and want every turnover scheduled and checked.

WHAT IT DOES

- **Automatic turnovers.** Cleaning jobs created from booking calendars and assigned to cleaners.
- **Crew app.** SMS login, checklists, a time clock and geofenced check-ins.
- **AI photo score.** A vision model scores each cleaning from the crew's photos on a 0-100 scale.
- **Cleaner matching and badges.** Scores and guest ratings feed who cleans where.
- **Incident reporting.** Damage, maintenance issues and lost items reported from the field.

PROOF FROM PRODUCTION

Live since June 2026: about 680 cleanings scheduled automatically, and an average photo-quality score of 90.8/100 across 240 scored cleanings, on 49 properties.

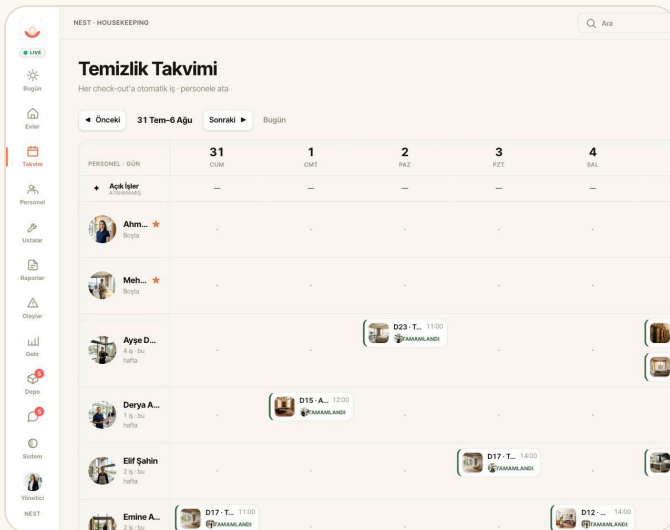

PRICING

USD 29 per month for 5 units, USD 79 per month for 15 units.

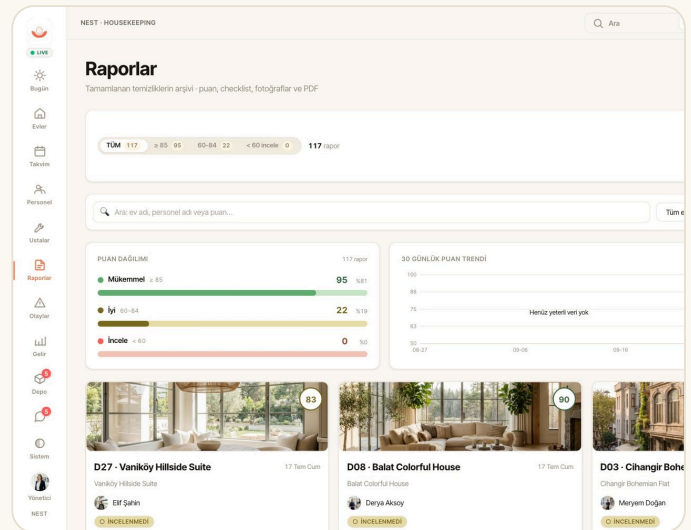

WORKS WITH

Works alongside the major booking channels through their calendars. PMS marketplace partner applications are in progress.
